

Evidence & Primary Sources

Draft 1.0 | September 2026 | Audience: school boards, researchers, policymakers

Draft governing framework - not adopted Minnesota law.

This document is a source index for the current Minnesota framework and the evidence base most relevant to the Minnesota Learning Project. It is not a substitute for the primary source.

Source	Publisher	Location

Evidence standard

Public claims should distinguish primary legal requirements, administrative guidance, performance data, research evidence and policy judgment. Where evidence is incomplete, the framework should say so rather than converting a theory into a factual claim.
